- Vantiv

# AN END-TO-END RETAIL MANAGEMENT SOLUTION

Sircle Point of Sale is a fully integrated **front point of sale** and **back office** solution that meets the needs of retailers. The solution only operates online. Monitor sales, payments, returns, inventory. Sircle Point of Sale provides the end user with an efficient and easy to use processing keypad that is core to daily point of sale functions, allowing your customers to move quickly through busy queues.

The **front point of sale** screen below illustrates how item search, discount, taxes or void/delete invoice can be done from a single interface screen.

**Search Button:**  
Allows for fast and easy look up for items by name or by item number.

**Number Key Pad:**  
Allows user the option to enter a transaction using the numbers keypad or by department category item button.

**Discounts:**  
Here you can apply discounts for individual items or for the whole invoice with "%" button at the very top.

**Taxes:**  
Here you can adjust taxes for individual items or for the whole invoice with Tax button at the very top.

**Void:**  
Here you can delete items from the invoice or void the whole invoice with the red X at the very top.

**Transaction Screen:**  
Displays items that are rung up onto the invoice. Here you can adjust quantity for items rung up, set item discount rates, delete items off of the invoice or view taxes for specific item on the invoice.

**Department Buttons:**  
Allows users to categorize merchandise by departments. Scroll right-to-left to view all categories entered into inventory (a maximum of 500 departments can be created)

**Inventory Buttons:**  
Shows all the items in the particular department you have selected. In this example, the Pizza department only has 4 items. If there are more items than can fit here, scroll right-to-left to view all items within the department (a maximum of 6000 items can be created in inventory)

**One Touch Button:**  
Provides for one touch command buttons to be used including: Open Drawer, Print Last Receipt, Fetch Invoice, Recall Invoice, Quick Add Items, and the current customer name (defaults to 1 - Guest Customer)

**Finalize Transaction:**  
Displays Subtotal, Federal, and Provisional Tax (HST,GST, PST/QST - where applicable) and Grand Total amount to pay. Press the PAY button to finalize the transaction.

#	QTY	DESCRIPTION	PRICE	%	Tax
1	1.00	main09@6.00 Hot Dog	6.00	%	Tax
2	1.00	top01@0.00 Ketchup	0.00	%	Tax
3	1.00	top05@0.00 Mayonaise	0.00	%	Tax

Subtotal	6.00
Tax	0.36
GrandTotal	6.36

The **back office** screen below illustrates how item, department, employee or reports can be created from a single [backoffice.sirclepos.com](http://backoffice.sirclepos.com) website.

**Settings:**  
Manage Customers, Vendors, Store Details (which appear on receipt), Tax rates, Email Setup (email receipt to customers), CFD Advertisement (set advertisement images for Customer Facing Display)

**Reports:**  
View reports such as detailed daily sales total report, department details report, payment type report, Z-out Report, inventory report, reorder level report, invoice report, customer and vendor report.

**Import:**  
Imports all the items from csv file directly to your Sircle POS inventory, Imports department, Imports sample inventory, rolls back same day's import.

**Employee:**  
Add, update, delete employee information. Assign access permissions.

**Department:**  
Add, update and delete departments details.

**Database Settings:**  
Upgrade database to latest version, Clear all Invoices (Sales), Clear complete database (al products, Invoices (Sales), and Departments)

**View Inventory:**  
View and Click on item to update, delete it's details.

**Help:**  
List of all the manuals

**Choice Groups:**  
Add, update delete choice item group.

**Add/ Add New Item:**  
Adds new inventory item.

  

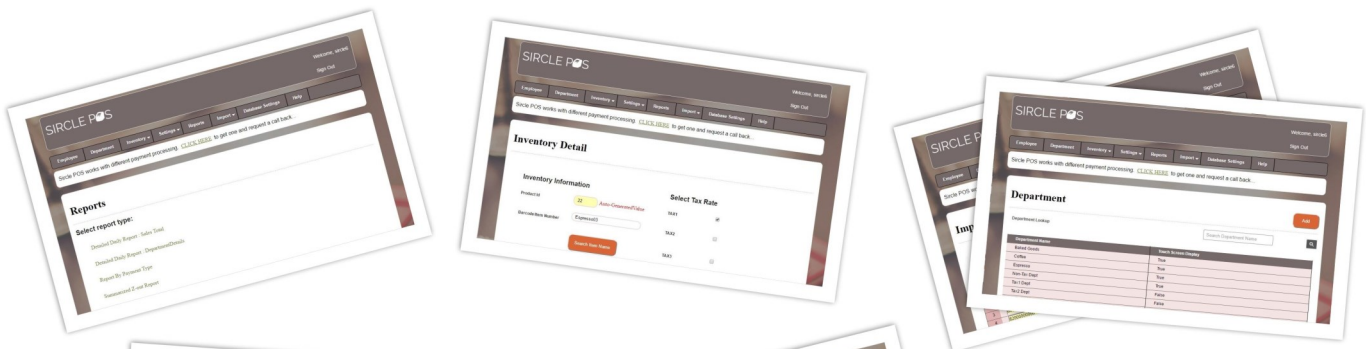

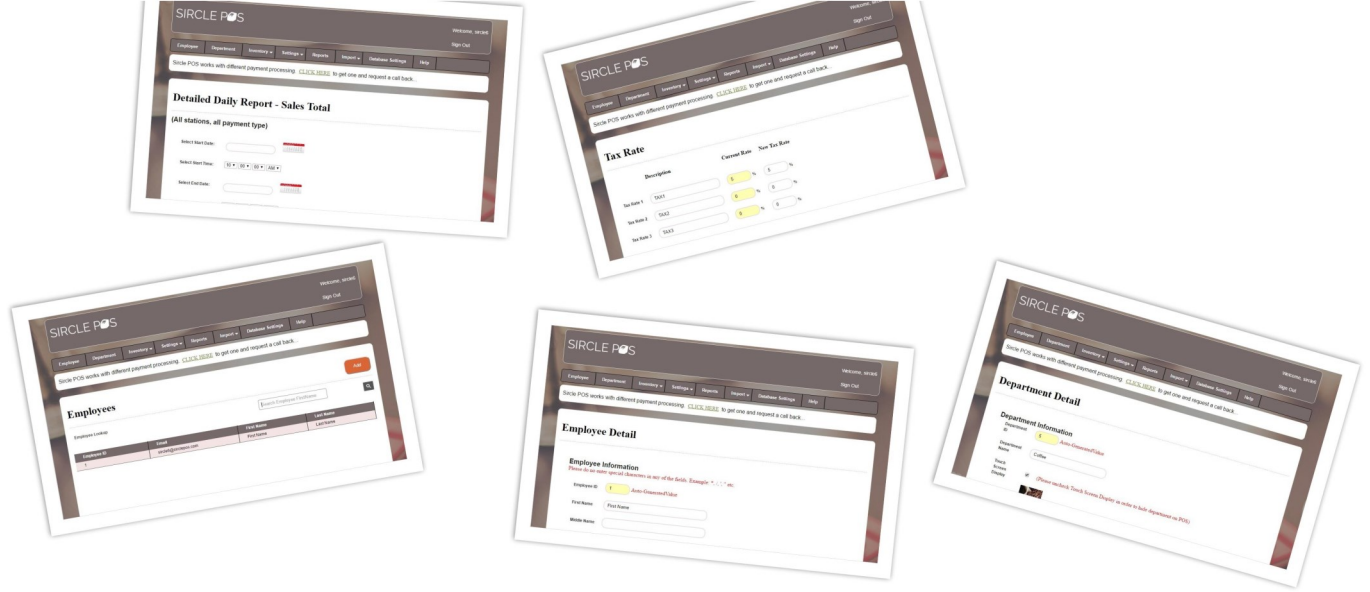

**Modifier:**  
Add, update and delete modifier items and modifier groups.

**Rearrange Items:**  
Set item position to rearrange them on Point of Sale

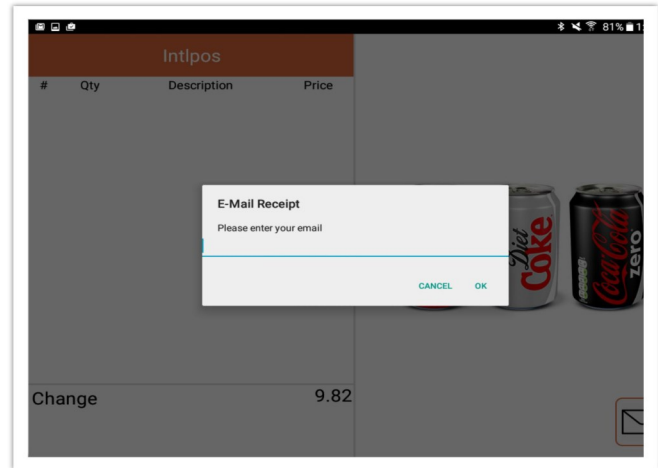

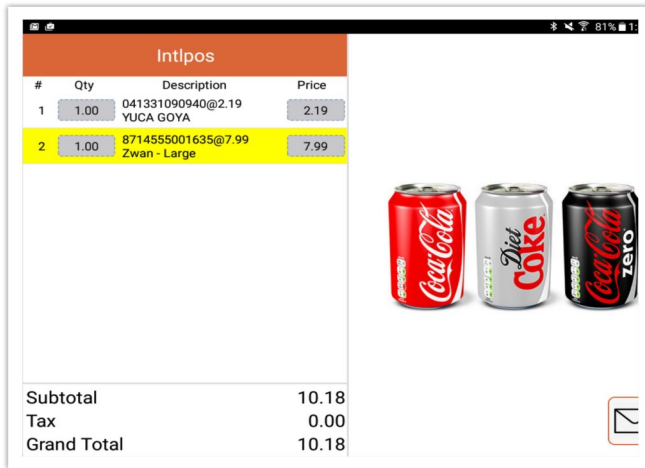

**Search:**  
Search inventory
