Instructions for Installation and Care of
2019 and Newer CF Moto Z-Force 800/1000 Polycarbonate Rear Window
CF-19-Z-RW02

NOTICE: Please check contents of package for any damage and make sure all parts fit correctly and you are happy with the product before removing protective film. Once the film is removed you cannot return the product for a full refund.

Be sure to read these instructions thoroughly before opening and installing the Z-Force 800/1000 Polycarbonate Rear Window.

1. Check over the parts included in the cartons with the parts list shown below:

1 ¾" Loom Clamps	6 each
1" Bolts	6 each
Thumb Nuts	6 each
Small Washers	6 each
48" End Bulb Rubber Gasket	1 each
Rear Window	1 each

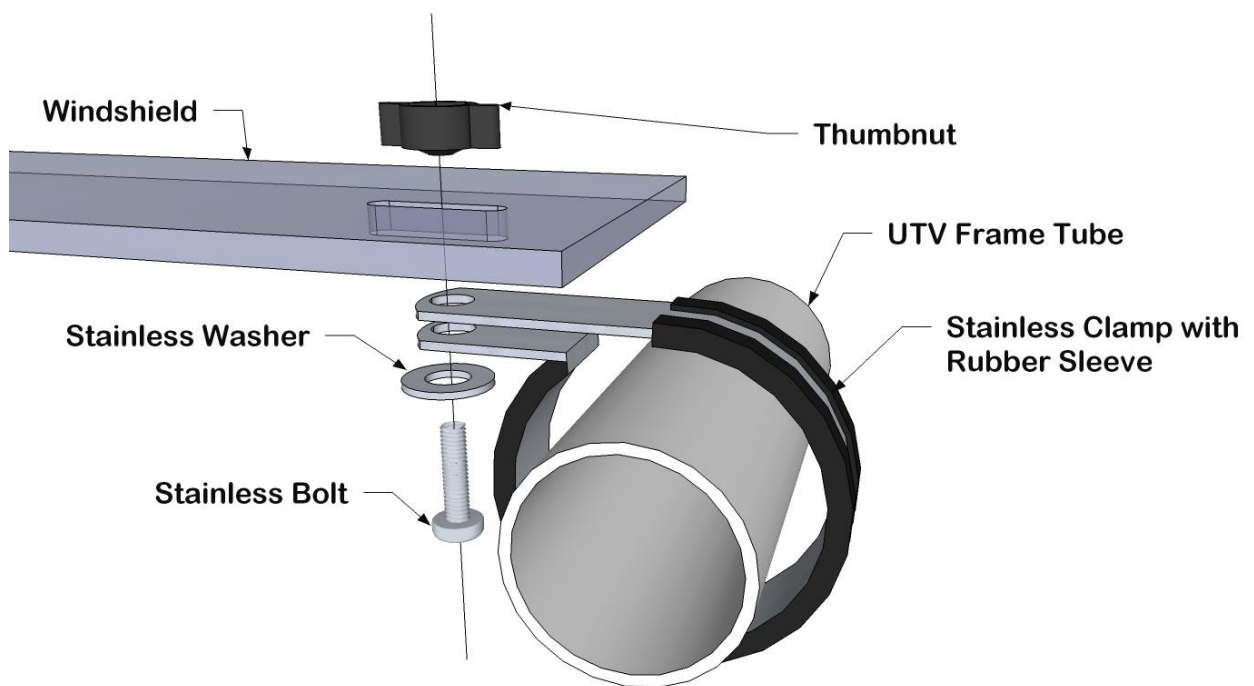

If any parts are damaged or missing please contact customer service at (606) 845-7439.

2. Start by pulling it out of the box, find a clean area to lay it down, and install the hardware. Begin by peeling off the protective film. Next take the 48" piece of rubber gasket and starting at one end firmly place along the bottom edge of the Windshield as shown in the photo below.

3. You are now ready to install the windshield on your roll cage.

4. Take the six Loom clamps and place them around the roll cage at each of the slots on the sides and across the top as shown in the photo on the next page.

5. Now you are ready to take it out and enjoy. To clean the windshield, always clean using a liquid of some sort to decrease the chance of scratches. We recommend using micro fiber cloths that are readily available at any dollar store. Any window cleaner will work fine; just remember to use a soft clean rag or micro-fiber cloth to clean it.

Thank you for your purchase!
