VERSION 8.0

The Keystroke V8 Product Family

Power, Efficiency, Secure Payments & More!

The all new Keystroke V8 offers the ultimate in power and efficiency – all under the same hood. Like a classic muscle car, Keystroke V8 will deliver the speed and functionality your retail business needs to thrive in today's fast paced world of data security concerns and changing technology.

Whether you're running a function limited POS app, what was once a competitive POS solution, or an older version of Keystroke – *the V8 upgrade is the very BEST decision you can make for your business today.* Choose between ***Keystroke*** ***Express POS***, ***Point Of Sale***, or ***Advanced POS*** and don't look back. The entire family of Keystroke software products is seamlessly upgradable – as your business prospers, adding capabilities or POS workstations will always be a simple task.

Fast, Secure, Compliant Payment Processing

- **PCI PA-DSS v3.1 Validated** 7/13/16
- **P2Pe/tokenization** for breach protection
- Full **EMV** integration for fraud prevention
- **NFC/smartphone** support for customer convenience – eWallets including **Apple Pay®**, **Android Pay®**, etc.

New Windows® 10/Metro-Style User-Interface

- **New Toolbar designs** (optional for existing users)
- **Easy to use** and fully customizable
- **.NET development** tools providing improved OS compatibility now, plus pending **new Report Engine** with graphical custom report editor
